“COVID-19 Vaccines: Where Are We Now And Where Are We Going?”

Wednesday, April 7th
12:00 - 1:00pm

In light of the community concerns regarding COVID-19, this talk will be given as a webinar. The link will be provided on April 6th to those that have registered by 5:00 pm on Monday, April 5th at uccs.ucdavis.edu.

This talk will focus on the rapid development of highly effective COVID-19 vaccines. Data will be presented on current vaccines that have received Emergency Use Authorization from the US FDA, as well as the pipeline of vaccine candidates. Challenges to vaccine development and implementation will also be discussed.

Dr. Susan Buchbinder, MD is the Director of Bridge HIV, an HIV prevention research unit at the San Francisco Department of Public Health and Clinical Professor of Medicine, Epidemiology and Biostatistics at the University of California, San Francisco. Her HIV research focuses on HIV vaccines, preexposure prophylaxis, broadly neutralizing antibodies, topical agents, and strategies to support their uptake and use. She is one of the founding members and serves on the Steering Committee of “Getting to Zero San Francisco,” an initiative that aims to eliminate new HIV infections, HIV-associated deaths, and HIV stigma. Most recently, she is the site Principal Investigator for the Coronavirus Prevention Network at the San Francisco Department of Public Health, where she conducts COVID-19 vaccine trials.
